

A Breath Taking Experience

Bad Breath, Turn Off, unfortunately over 11% of the population suffer from serious halitosis while a large percentage of Coffee, smokers and others who dine and enjoy garlic and other savory tastes end up with BAD Breath.

Denture wearers in particular experience DENTURE BREATH or food that is caught under the denture and not properly removed providing a harmony of atmosphere for bacteria to grow. The tongue is the main place for odor causing bacteria to gather and multiply providing a serious issue for the patient.

Dr. Breath a Product That Works for your patience.
